### PROJECTS

#### **Checkedin Mobile App**

Checkedin simplifies travel by handling luggage logistics. Users schedule luggage pickup 24 hours before their flight, ensuring a stress-free journey. As a project contributor, I helped develop key features for seamless user experience using Flutter, Firebase, FirebaseAuth, and Firestore.

#### **MyHlth Website** | October 2023 – November 2023

Designed a health and wellness WordPress website with a strong UI/UX and responsive design.

#### **Trekko Wholesaler Project** | February 2022 – August 2022

Developed a dynamic profile webpage for wholesalers using the MERN Stack (MongoDB, Express.js, React.js, Node.js) developing the full-stack by myself (front-end and back-end), achieving responsiveness across devices.

#### **By Sudan** | June 2020 – October 2020

Revolutionized e-commerce with a Flutter app, converting WooCommerce, Opencart, or Magento websites into mobile stores.
